

# 10 NAZI DIVISIONS WIPED OUT NEAR UKRAINE CAPITAL

## Great battle. Nazis' biggest yet

### Awarded D.F.C.

## STETTIN TARGET IN NIGHT RAID

# R.A.F. Fires 4 Nazis Ships

## Convoyed vessels Attacked

PO. DAVID FLORENCE

**PO. Florence Of Edmonton D.F.C. Winner**

LONDON, Sept. 20.—(CP)—Six Canadian airmen, one a member of the Royal Canadian Air Force, have been decorated for daring attacks against the enemy, it was announced Friday.

Acting Wing Commander N. W. Timmerman of Kingston, Ont., was awarded the Distinguished Service Order. PO. D. S. Florence, Edmonton, in the R.C.A.F. in 1940, was awarded the Distinguished Flying Cross. Others awarded the D.F.C. included: Acting Sqdn. Ldr. J. D. Beardon, Charlottetown, P.E.I., and Acting Pilot Officer W. M. Carleton, Cumberland, B.C.

The award to Beardon accompanied his posthumous promotion to wing commander in the R.C.A.F. in 1940. He was killed in action in the attack on the German battleship *Bismarck* in May, 1941.

Record Merchant Fleet "Invades" New York

Marking the greatest influx of merchant ships since the war began, 114 British, Dutch, Norwegian and other vessels lie at anchor in New York harbor, awaiting their turns to dock, unload their cargoes and sail away with new ones. This airview shows some of the ships—freighters, tankers and whalers—in "The Narrows," with Brooklyn in the background. All arrived within 42 hours.

### Body Is Found

## Fight For City Not Yet Lost

MOSCOW, Sept. 20.—(AP)—The Red army announced today it was waging a terrific battle for possession of Kiev, indicating all was not lost there, and that 10 German divisions—perhaps 150,000 men—had been wiped out on the approaches to the Ukrainian capital, along with hundreds of planes and tanks.

That, briefly, was the picture of the defense of Kiev as given by the Soviet Information bureau and the army newspaper *Red Star*.

"During the night of Sept. 19-20," said the communiqué, "our troops continued to fight the enemy along the approaches to Kiev, which was particularly heavy at Kiev."

"FIGHT UNTIL DEATH!"

Red Star said "The gunners of the Red Army are fighting the enemy with their guns."

"The Germans shall pay dearly for their fight. The Red Army is sparing no efforts to inflict the heaviest losses on the enemy."

The battle for the city, with Red Army units withdrawing and infantry opposing encircling Nazi units, was one phase of a vast struggle to drive the Germans from the western border of the Soviet Union, and the Donets River basin.

Heavy hostile planes were detected in the sky over the city, and the pilots of the Red Army's Black Sea fleet were seen to be attacking them.

### Two Italo Troop Transports Sunk

ROME, Sept. 20.—(AP)—The Italian high command admitted today the sinking of two Italian troop transports in a convoy off Libya and said the Royal Air Force had raised both Tripoli and Benghazi in North Africa.

Nearly all the soldiers and crew on board the vessels were saved by other ships in the convoy, the high command added.

## ANTI-GERMAN PLAN GROWS

# Norse 'Go Slow' Campaign Hits At Occupying Nazis

By Ned Russell

LONDON, Sept. 20.—(AP)—"Go slow" tactics by Norwegian workers in factories, road construction and other important projects were believed today to be retarding in most effective harassing German troops in occupation in Norway.

Some believed that despite German measures, the Norwegians were pressing their underground campaign to the limit.

### U.K., States Agree Give Soviet Aid

LONDON, Sept. 20.—(CP)—An agreement on immediate material aid to Russia has been reached here by the United States and British missions to Moscow, W. Averell Harriman, head of the American delegation, said today.

Mr. Harriman emphasized the agreement was an immediate shipment of goods and that no settlement had been reached on general policy. The United States delegation expects to go to Moscow soon.

Saying Lord Beaverbrook, British minister of supply and head of the United States military mission, already was in the Russian capital, Mr. Harriman added laughingly: "I have no concern over giving first as this is a contributing mission."

AID TO BE INCREASING

He said that Gen. James Chaney, United States military adviser in London, would take the place on the Moscow delegation of Gen. George Brett, now in the middle east, because Brett will be unable to complete his business there in time.

Mr. Harriman's press conference spoke a report he already had heard. Regarding the matter of supplies which will be sent, he said: "There will be hundreds of American planes and tanks sent to Russia, but I would not wish to specify when or what types. The flow will be constantly increasing and eventually will be limited only by problems of transport."

It is "reasonable to assume," he added, that the question of replacement of raw materials lost by Russia through German conquest of bomb dumps also will be considered by Britain and United States.

### Mrs. Glowacky Is Identified: Found In River

MRS. EVELYN GLOWACKY

Intensive search of three weeks terminated Saturday with positive identification of the body of a woman taken from the Naskatchewan river near Bruderheim as that of Mrs. Evelyn Glowacky, who disappeared from her North Edmonton home on Saturday, August 28.

Supt. John Bird, head of the Criminal Investigation branch of the R.C.M.P. in Alberta, stated today that R.C.M.P. investigators at Bruderheim had "positively identified" the body as that of Mrs. Glowacky.

Supt. Bird said the message did not say how identification had been established.

FOUR MURDERERS

The body was being brought to Edmonton Saturday afternoon, and it was reported that the cause of death is to be held here, possibly over the weekend.

Supt. Bird also said his men had reported there were scratches and bruises on the woman's head. There were also signs of several teeth, the superintendent pointed out. Only a post-mortem examination would determine the probable cause of death, the officer stated.

Heavy roads were delaying the bringing of the body to the city.

The body, taken from the water by R.C.M.P. Cpl. F. A. Olson, of Lacombe, R.C.M.P. detachment, was in a badly decomposed condition. Bruderheim is about 35 miles from Edmonton.

### GERMAN BASIS FOR BUSINESS

## 100% For Nazi Is Reich Plan

Book Says Others Would Suffer Underselling, Underpaying, If Hitler's Victor

This is the seventh of 12 installments of "You Can't Do Business with Hitler," the best-selling book which has aroused widespread comment throughout North America.

By DOUGLAS MILLER

(Former Commercial Attache in the U.S. Embassy in Berlin.)

A totalitarian Europe would operate its economy through highly organized, centralized control. If Hitler wins, we should not be able to negotiate agreements with individual firms over there. Everything would be routed through a government agency.

We should have to operate under the regulations laid down by dictators. The Nazis believe in 100 per cent exclusiveness.

I remember how American firms who completed business negotiations through the Nazi government up to last year were compelled to ship their goods on German ships, use German insurance companies, make contracts enforceable under German law and in German courts, provide at their own expense for German inspectors who came to this country in advance of shipments.

The Nazis even insisted that contracts made with German firms should carry a printed clause to the effect that "this contract is made under National Socialist principles."

### Four Belgians, British Woman Drift 3 Days Making Escape

LONDON, Sept. 20.—(AP)—The adventures of four Belgian men and a British woman, who drifted in a nine-foot dinghy for three nights and two days on the choppy English channel in their flight from Nazi-held Belgium, was related today by the News Chronicle.

Their outward motor worked at first, the fugitives said, but later it spluttered out and finally an S.O.S. signal on a handkerchief smeared with lipstick was flown from an upland car.

They said they almost had given up hope of reaching land last night when they were sighted by a Spitfire 20 miles from England.

The woman, wife of a Belgian subject, was the mother of one of the men in the group.

### U.S. Will Curtail Private Building

By SANDOR S. KLEIN

WASHINGTON, Sept. 20.—(BUP)—Defense officials today predicted sharp curtailment of ordinary residential building as a result of the decision of the office of production management to give priority to defense housing first call on material.

"To put it bluntly," one official said, "the main effect of the priorities on building materials is to curtail the production of residential construction in the home."

Under the program, to be administered by priorities director Donald M. Nelson, builders of privately-financed homes for sale or rent will be given priority for materials to apply for priority ratings to insure delivery of scarce building materials. These include structural steel, iron, nails, bolts, electrical equipment and pipe.

### Huns Requisition Russian Clothing

MOSCOW, Sept. 20.—(AP)—The Russians said today the Germans are requisitioning clothing of soldiers in occupied areas with the approach of colder weather, declaring residents of one soviet town had been ordered to deliver 200 sheepskin coats, 200 pairs of gloves and 100 pairs of felt boots within 24 hours.

Continued on Page 2, Col. 2

### Fire-Fighters To Be Sent Overseas

OTTAWA, Sept. 20.—(CP)—Formation of a civilian group of trained fire-fighters to be sent to help British forces fight in the field, is to be undertaken, Mr. George L. LaFleur, associate deputy minister of National War Services, said today.

The general informed a group of eight fire-fighters and fire chiefs representing almost every province, that this action was being taken as a result of Prime Minister Mackenzie King's announcement in London recently that Great Britain needs fire fighters.

### British Occupy Teheran Suburbs

LONDON, Sept. 20.—(CP)—The British Broadcasting Corporation said Friday night a British armored column had occupied the "inner suburbs of Teheran" yesterday. The broadcast also mentioned British occupation of the Shikha machine-gun factory east of the city.

### Duke, Duchess To Visit Ranch To Next Week-End

OTTAWA, Sept. 20.—(CP)—The Duke and Duchess of Windsor are expected to reach the ranch of High River, Alta., at the end of next week and their visit will be entirely private and for purposes of rest and relaxation, a government spokesman said today.

Arrangements are being made for a reception that will be "appropriate" to the private visit, but no announcement of dates or details of the trip will be made probably at the first of next week.

### German Garage In Paris Burned: Arsonists Escape

VICHY, Sept. 18.—(AP)—Ten men set fire to a German army garage in Paris last night in defiance of Nazi repression measures. All escaped.

The German-occupied garage on Boulevard Champer, in St. Germain, was burned to the ground after less than 18 hours after two Communists died before Nazi firing squad for anti-German demonstrations.

A passer-by saw the 10 men leave the garage burst into flames but not one of them was caught.

### Confiscation Bill HELSINKI, Sept. 20.—(AP)—President Risti proposed a bill to parliament today to authorize the government to confiscate all foreign property in Finland.

### Signs Tax Bill

HYDE PARK, Sept. 20.—(AP)—President Roosevelt today signed the \$553,600,000 United States tax bill, the largest ever enacted.

### U.S. Expediting War Supplies To Russians

WASHINGTON, Sept. 20.—(AP)—Secretary of State Cordell Hull said today the United States is doing everything possible to increase and expedite aid to Russia.

Hull made his statement in reply to questions concerning how much help is being given Russia, or is to be given, in view of details of the first of aid received.

### Russians Join Japan

TOKYO, Sept. 20.—(AP)—Fifty Soviet Russians, including the wife of Gen. Hiroshi Kuroki, fled to Tokyo, said from Tsuru, western Japan, for Vladivostok on Friday.

"Every time he pops his nose up in the air in which our bombers are operating there is a danger of being shot down," said one of the Russians, "so we decided to knock him out of the air."

"In about thirty seconds the Soviet plane was shot down," said one of the Russians, "and we were taken to the ground with Spitfires on their tails pointing down at them as they came, and then there is the usual little circle of disappointed Japanese pilots, patrolling the area where the plane had been, and cursing their luck for not being able to shoot it down."

### Constant Cross - Channel Sweeps By R.A.F. Now Have Huns Rattled

LONDON, Sept. 20.—(CP)—Constant cross - channel sweeps by the Royal Air Force "have got old Jerry rattled," said Wing Cmdr. A. G. Malan, ace South African fighter pilot, writing in "London Calling," overseas publication of the British Broadcasting Corporation.

"Every time he pops his nose up in the air in which our bombers are operating there is a danger of being shot down," said one of the Russians, "so we decided to knock him out of the air."

"In about thirty seconds the Soviet plane was shot down," said one of the Russians, "and we were taken to the ground with Spitfires on their tails pointing down at them as they came, and then there is the usual little circle of disappointed Japanese pilots, patrolling the area where the plane had been, and cursing their luck for not being able to shoot it down."

### Interpreting War News

By KIRK L. SIMPSON

Associated Press Staff Writer

THE fall of Kiev, announced by Hitler's headquarters, is a staggering blow to Russia. It is a blow which, if confirmed, to Berlin assertions that Red army resistance was swiftly crumbling from the Moscow front to the west of the Black Sea.

In the light of the bitter resistance of both Leningrad and Odessa, under close siege for weeks, the quick fall of Kiev is almost unbelievable.

That the city was in grave danger was clearly indicated by Moscow radio reports. It was claimed it had been encircled by German forces. It was said that the city was in the hands of the enemy. It was said that the city was in the hands of the enemy.

BULGARIA MAY BE USED TO STALL NAZIS

Turkey Expected To Block Dardanelles

Balkan State Is Still Technically Enemy Of Two Of British Allies

LONDON, Sept. 20.—(CND)—Turkey is expected by the British government to block any attempt by the Axis to sneak Italian war vessels through the Dardanelles on the pretext that they have been transferred to Bulgaria.

Appointment

Bulgaria, the British point out, is technically at war with two of Britain's allies, Yugoslavia and Greece, and therefore cannot be regarded as a neutral under the terms of the Montreux convention. Under that convention only neutral warships are allowed to pass through the straits.

Oddly enough, Britain is not at war with Bulgaria though she has severed diplomatic relations. Oddly still the Soviet Union has not even broken off relations with Sofia.

Britain's position on the proposed passage of the pseudo-Bulgarian warships through the straits was made clear in a demarche to Turkey two months ago and it is reported from Istanbul that those representations have now been repeated. While there is no confirmation of this fact in London, it is thought likely, in view of fresh rumors that the Bulgarians have been permitted to right ships to pass through into the Black Sea.

It was stated in London that the source of this information was a high official of the department of defence for naval services, Ottawa. He was loaned by the Bell Telephone Company of Canada to the department for air.

His new duties which he took over, will increase the co-ordination, on behalf of the deputy minister, of the civilian activities and personnel of the department of defence for naval services.

Continued From Page One

action with the R.A.F. and military cable to them said Sept. 19.

Sgt. James B. Hamilton, Ont., and Sgt. B. G. Redburn, Hudson Bay Junction, Sask., were awarded the Distinguished Flying Medal.

Florence was described in the citation as an enthusiast for night photography and had obtained photographs containing valuable information.

"Despite weather conditions and enemy opposition the courage he shown his captain volunteered to go on a reconnaissance mission."

"A very thorough and persevering navigator who has done much to raise the standard of photography and navigation throughout the unit. As a bomb aimer he has been equally successful."

PILOT MAKES 30 TRIPS OVER ENEMY COUNTRY

PO Florence is at 1078 110th street. He joined the air force in April, 1940, and received his commission in Trenton, Ont., several weeks later. He was home on his last leave, before going overseas last October. He went overseas the following month.

As far as his mother was able to ascertain, her son had made approximately 30 trips over enemy territory before he became an instructor.

He was born in Edmonton and attended Eastwood public and grammar high schools. He was employed in the civil service after leaving high school and was working for the Chalmers lumber company when he was enlisted. He is 29 years of age.

A British Bomber—A Nazi Ship—Bull's Eye!

The daring of R.A.F. low-level attacks on Nazi-held ports is shown in the photos above, taken as a British Bomber-Bomber raiding shipping in Rotterdam harbor. In left photo, arrow indicates the bomber, swooping mast-high over cargo liner of the Noordam canal. From that near it was hard for the bombardier to miss. He didn't. Photo at right shows huge ship banged over on her beam-ends.

President Silent On Report That Nazi Raider Sunk

HYDE PARK, N.Y., Sept. 20.—(CND)—President Roosevelt was asked at his regular press conference today about a story in the London Daily Express from its New York correspondent that an American naval ship had sunk an Axis war craft. The President said it did not seem to comment one way or another.

The Daily Express' New York story said rumors came from Panama that a raider had been sunk by American warships. Col. Frank Knox, navy secretary, had already announced that warships had searched islands in the vicinity of the Panama Canal to find out whether a suspected raider was operating there.

Russian Flying Boats En Route Home Via Alaska

SEATTLE, Sept. 20.—(AP)—Two Russian flying boats which brought a military mission of 47 men to the United States two weeks ago, took off Friday en route back to Alaska.

Abroad were 10 Russians, all but one of whom made the original flight, the civilian naval district headquarters reported.

The planes reached Sitka, Alaska, in the day after a 900-mile flight, 13th naval district headquarters reported.

Four Nazi Ships Are Set Afire In R.A.F. Attack

Continued From Page One

Coastal command planes attacked four Nazi ships in the North Sea last night and all returned to their bases.

Stettin, on the Oder river, is the German capital and last was bombed by the R.A.F. Aug. 12. It is approximately 100 miles northwest of the German capital and last was bombed by the R.A.F. Aug. 12. It is approximately 100 miles northwest of the German capital and last was bombed by the R.A.F. Aug. 12.

There was no confirmation of a Nazi claim that British bombers attacked at Berlin last night. The Press Association denied the R.A.F. had raided the capital.

Nazi sources in Berlin claimed the R.A.F. was reported over Berlin by anti-aircraft fire and said that in northern Germany explosions and incendiary bombs fell on several cities causing many casualties in dead and wounded.

A British bomber, probably a Blenheim, scored four hits yesterday on an Axis supply ship in the Bay of Biscay off the coast of France in a daring low level attack.

THOUSANDS OF NAZIS

BERLIN, Sept. 20.—(AP)—The Germans said today thousands of Russian residents fled to air raid shelters during the night as Royal Air Force bombers attacked the German capital. An official announcement claimed, however, that the British aircraft did not, puncturing the city's anti-aircraft defenses.

(The authoritative Press Association said in London that the R.A.F. made no attack on Berlin last night.)

In northern Germany, the announcement added, the R.A.F. dropped explosive and incendiary bombs on several cities, causing a number of dead and wounded among the civilian population.

It was claimed one British bomber was shot down.

Woman's Body Is Discovered At Bruderheim

Continued From Page One

Mr. Glowacky disappeared from her home at 12128 83rd street sometime between 10 p.m. and midnight on the night of August 28.

According to her husband, John Glowacky, he had returned from a function at the Polish hall shortly after 10 p.m. and found the three children in bed asleep and the wife missing.

At that time she was wearing a "dark print dress" with red and white figures on it and black pumps.

She had put the children to bed about 10 p.m. and was reading a paper when last seen by her daughters.

An intensive search was carried on by city police for several days.

SHOE DIDN'T FIT

A few days later a woman's black pump was taken from a small box who found it near the river at about 100 street.

Det. William McDonald of the city police department has been in charge of the investigation concerning the woman's disappearance inside the city.

According to reports received from Cpl. F. A. Olson of the Lamont C.M.P. detachment, the body of the woman was discovered about 8 p.m. in a badly decomposed condition.

FOUND BY BOYS

Sgt. Byrd of the Edmonton headquarters stated that he received his report from Lamont about 10 p.m., and the word he received, he said, indicated the remains were first found by some boys, who noticed the body was wearing a pair of black pumps.

She had on a short coat, police said, similar to a man's, fabric raincoat. Waterlogged and discolored with mud, it was difficult to ascertain any further details of her attire. Police said two additional pumps were recovered on the collar of the coat.

## SUGGEST BRIBE HITLER TO SURRENDER

## Junge Natives Mystified As Europe's War Prolonged

Government Of Belgium  
Orders Congo Queries  
Be Given Frank Replies

By GEORGE WELLES

YAKUSU STATION, River Stanleyville, Belgian Congo, Sept. 20.—(CDN).—When the war going to end? How can two tribes continue fighting so long? Why does not your tribe give a big present to this chieftain Hitler, to persuade him to surrender?"

Such are the questions two tribes of Congo fishermen, the Lokeles and the Yakus, and three tribes of forest hunters, the Eweles, the Bamboles and the Ter-

**EXCLUSIVE**  
ambus, of this region are continually asking the small, courageous band of missionaries who have undertaken their material and spiritual improvement.

Less than a dozen quiet, hard-working men and women whose hands are as ready with good deeds as their hearts are full of practical religion have made themselves responsible here for keeping 150,000 black people physically healthy as well as at peace with each other and themselves.

Congo boatmen, who nightly face the jaws of crocodiles and hippopotamuses to spread their fishing nets across the violent river, always arrange their tribal difficulties to end in early armistices. They think the whites ought to do the same. Their proposal for handling Hitler is simple: Offer him a bribe in the form of a valuable woman of the allied tribe. This method has brought an end to hundreds of jungle wars and the tribesmen believe that it would be similarly successful in Europe.

## DON'T EXCITE NATIVES

For a week World War II was not known in the jungle. The long, hollow drums, whose muffled tattoo sends the news of every marriage and death from village to village, were silent. Then paddlers in dugout canoes, who had gone upstream as far as Stanleyville, began asking the mission staff searching questions. The Belgian government gave orders that all native queries should be answered with absolute honesty and straightforwardness. But no attempt was to be made to whip the villages into war frenzy or to complicate their lives with political dogma.

These river and forest people are genuinely mystified over why the war is continuing so long. If offering Hitler a woman fails, they have a second solution ready.

## BATTLE WITH DISEASE

Although unable to act upon this suggestion, physicians and mission workers, headed by Dr. and Mrs. William H. Ebnale, are no strangers to Death. They have been holding him at bay for nearly half a century. With the drug trypanosome, furnished by the Rockefeller Foundation, they have won their own battle by driving sleeping sickness from around Stanley Falls. In 1915 many villages had 30 per cent of their inhabitants drowning away to death and the physicians following the jungle trails found 135 cases in six days. This year the doctor, wishing to find the deadly blood parasite, trypanosome, for tropical disease research, had runners combing the villages for months before finding the first infected case.

The peculiar British technique of snubbing the war by behaving as though it never existed flourishes among the Yakusu Baptists. Although 40 Baptist churches have been destroyed in the London area alone and in Portsmouth only one was left standing, financial contributions to this mid-Congo mission for the past year were 50 per cent of normal.

Dr. Raymond Holmes and Dr. George Brown of Stanleyville are crediting stubbornly through. Medical supplies in their tiny hospital are low and getting lower. There is little chloroform and no ammonium carbamate. For anaesthesia they are using alcohol, actually injected. Wound sutures having ceased to arrive from Europe, they are making their own from palm fiber. Native wild cotton is boiled for cotton bales. Pupae is being grown in order to make ointment for chest plasters. Palm oil furnishes vaseline. They cannot fix a broken #100 Westinghouse X-ray tube from alligator's teeth or elephant's tails, so that must wait.

**NEW LEPROS STATION**  
This year as the tribesmen are excited, they are preparing to cross the Congo in dugout canoes to meet and master the enemy. For upon the opposite bank of the Congo 90 houses have been erected by the government and will soon receive 2,000 lepers drawn from 450 villages. Mission doctors are already seeking Chalmers oil for the lepers.

Each year more black pharmacists go forth from the Yakusu to establish more dispensaries in the village, replacing the medicine

beat her black and blue to speed delivery. She often arrives at Yakusu breathless from fleeing relative, and bleeding from their well-meaning blows.

Yakusu has had 2,000 medical consultations in the 21 years its hospital has existed. And in the graveyard behind the rusty brick chapel lie pioneer missionaries whom malaria, blackwater fever and amoebic dysentery have swept away.

Mopping his sweat-streaked face, your correspondent read their records. Beginning with the 1880s, two missionaries lapsed 11 years before succumbing to Africa. Two more endured nine years each; one, seven; one, four; two, three; one and one woman died coming up the Congo to join her husband.

men. When the labor pains of the expectant black mother had more than 24 hours relatives invariably

The Mobile Workshop is one of more than 20 types of military vehicles—some completely Ford-equipped, some installed on Ford-built chassis—now being produced by Ford of Canada.

**B**ASES are left far behind in the smooth, fast sweep of a modern advance. To keep pace with this new type of warfare, army "trouble-shooters" have taken to wheels. The Mobile Workshop carries portable work benches, lathe, drill press, electrical equipment and other tools needed to keep Empire wheels rolling, guns firing and men advancing. Skilled mechanics set up shop and do their important repair work within sound and sight of the battle.

The Mobile Workshop is an example of the excellent equipment being turned out in great quantities by Canadian industry. In the Windsor, Ontario, plant of Ford of Canada, more than 13,000 skilled workers

have already completed more than 100,000 army vehicles. In a never-ending stream, these "fighting machines for fighting men" roll away from Ford assembly lines—night and day—to serve with Empire armies.

In addition to the skill and experience of Canadian workers at Ford of Canada—there is another important factor which has helped make this Windsor plant the British Empire's most important single source of mechanical transport. It is the enthusiasm of true Canadians, working steadily, surely and swiftly to serve their beloved Empire to the utmost of their ability.

## CHILDREN NEED POISE

## Dancing Classes Being Organized For New Season

## Major And Minor Notes

By John Oliver

WAR services and air raid victims will be beneficiaries of the net proceeds of the Edmonton Civic Opera Society production of *The Chocolate Soldier* at the Empire Theatre on Nov. 6, 7 and 8. Officials of the organization have announced that in conformance with policy pursued in recent years, part of the proceeds will be allocated to deserving endeavor. This time the war services and those who have suffered as a result of air attacks will be the recipients. It will be recalled that last spring after the society wound up its season's activities it was able to Robert Muir, as representative of the Edmonton branch of the Canadian Red Cross Society, a cheque for \$1,000. The production was made on the stage of the Empire Theatre by Mayor John W. Fry.

Interest in *The Chocolate Soldier* is reported at a high peak, with many tickets already reserved. The attraction merits attendance on its intrinsic appeal and more so when part of the proceeds will be devoted to such worthy causes as those championed by the society. James B. Carmichael, general manager of the organization, states that the orchestra has arrived and the musicians will be covered at an early date for rehearsals.

The parts are being distributed. It is hoped could speak, they could tell an interesting story. In order to be significant, the central players who have played throughout. Someone started it and successive musicians have followed. On the roll will be found names of members of the Metropolitan Opera Association, the Chicago Civic Opera and other noted organizations. A glance at this list will convince one of the general appeal of *The Chocolate Soldier*.

Oscar Straus thoroughly absorbed the atmosphere and pleasant charm of Viennese orchestration. Like his fellow members of the modern "Big Four" orchestra, Franz Lehár, Leo Fall and Emmerich Kalman, he has imbued his compositions with the dainty, charming effects which have been characteristic of works from the once gay Austrian capital whence flowed the happiest and most melodious music. He has taken upon himself all the light-heartedness of Strauss, the grace and suppleness of Lehár, and the modern Viennese "Big Four" need bow to no modern contemporary composers. Oscar Straus' writing is distinguished by grace and refinement, with good judgment and distinction apparent at all times.

The score of a modern Viennese opera, in both harmonic complexity and elaborate orchestration are far beyond most grand operas of the pre-Wagner era and equal the grand opera writing of the day. Paved by Lehár, who outdistances them all, the modern Viennese "Big Four" need bow to no modern contemporary composers. Oscar Straus' writing is distinguished by grace and refinement, with good judgment and distinction apparent at all times.

The *Edinburgh Ladies' Choir*, under David W. Vaughan, will resume weekly practices at the ground floor of Hudson Hall at 3 p.m. next Monday, Sept. 22. All members are welcome and those contemplating joining also will be given a cordial reception.

Lothar King, a negro singer, will appear in recital at First Baptist

## Music Season Gives Promise Wide Activity

Music students are active and with the opening of school next Monday will become increasingly so. Teachers and pupils alike have returned from their holidays and with the removal by the provincial health board of the order prohibiting assemblies of children under 18 has opened the way for a wide range of musical activity.

This city is specially well equipped with music teaching facilities. First-class vocal and instrumental tuition is available. Indications are that music teachers will be unusually busy this year. Increased spending power, the influx of more people and the appreciation of necessity of music as a cultural factor are contributing to increased musical activity.

IRENE LITTLE Among the city teachers who have resumed classes for the season is Miss Irene Little, A.T.C.M., whose studio at Alberta College, phone 21464 is one of the busiest in the city. Miss Little specializes in the teaching of piano theory, history, form and pedagogy. She has recently returned from attendance at summer courses in music and psychology at the University of California. In addition to her teaching at the Edmonton Civic Opera Society for the production of *The Chocolate Soldier*, at the Empire Theatre, Nov. 6, 7 and 8. She has had excellent results with pupils who have taken recent examinations.

ROBINSON AND SONS Robinson and Sons, musical instrument and electrical appliance dealers, can supply any known musical requirement at their store at 10247 Jasper Avenue, phone 22456. This firm is headquarters for the city.

## Now Teaching

Dell Davidson, talented Edmonton dancer, has returned from study and stage triumphs in eastern Canada and has opened a dance studio at the Institute building, 109 street.

The Mason and Risch piano, well as for sheet music, folio, examination music of all grades, theory books, band and orchestra instruments, radios and in short, everything in the musical line. T. L. Robinson, manager, is widely known in business and music circles and his comprehensive knowledge of both amateur and professional requirements insure the best of service at all times.

"Billy" Inventor Dies in Toronto

TORONTO, Sept. 20. (CP)—Alonso Trip, on-line a Jewish or worker turned policeman, who invented the well-known policeman "billy" died at his home here Friday. He got the idea during his days on the police force that a leather covered stick with a wrist strap would be a handy weapon in dealing with unruly prisoners.

## Skilled Training Vital Essential Declares Teacher

Teaching dancing to children should be both educational and recreational, according to Juneau Bond, directress and chief instructor of the Juneau School of Dancing. The child should gain balance, poise, co-ordination, rhythm and develop a lovely personality in a beautiful, graceful body. Many times, she said, a person will be heard to exclaim something like, "Mary is different from her companion; I think her dancing helps her." This, said Miss Bond, is quite right.

Continuing, she said that "Proper dance training and development does more for the child physically and psychologically than any other form of study. The study of ballet technique emphasizes the importance of the position of the arms and trunk, in their relation to the feet. This is attained rhythmic co-ordination."

"On the other hand, the study of tap dancing, apart from its popularity, does much for a child's poise and rhythm and is a mental stimulant. The tremendous psychological and physical advantages to a child receiving a balanced training in ballet, tap and acrobatic dancing, such as is taught in our children's classes, is thus plainly seen."

EXPRESSES PRIDE Miss Bond expressed her pride at being the directress of this city's "newest modern dance studio." She is well qualified for the post, having studied at the famous Fanchon and Marco studio, Hollywood. She holds a diploma from the Dancing Masters of America.

In the post of associate instructor of the Juneau school is Ray T. Moore, who specializes in tuition of acrobatic and ballroom dancing. "They say reputation leads and this seems true of ballroom dancing, as during the first World War interest in this type of dancing skyrocketed," said Mr. Moore. "This was the era when the pioneers of ballroom dancing, Vernon and Irene Castle, were enjoying their 'great influence'—an influence that has persisted until this day."

"With the world again at war, the public have shown a renewed interest in social dancing, as evidenced by the great number of people who, although average dancers, take a few lessons to acquaint themselves with modern technique."

"It appears likely that youth and

## Reich Leaders Want Deals Made Only For Benefit Of Themselves, Author States

Miller—Continued from Page One.

principles." No American knew what National Socialist principles were, and we were never able to find out in advance. In practice, however, this meant that the American firm was strictly bound to the contract but that the Germans were able to get out of it at any time by quoting such versions of National Socialist principles as they cared to apply.

### Typical Methods

Examine methods the Nazis have used on Sweden, Switzerland, and other weaker countries. A Swedish firm sold to Germany in the period before December, 1938, even was called upon to submit a list of its employees.

These names were checked against reports from Nazi agents in Sweden, and all persons whom the Nazis considered undesirable had to be fired.

Otherwise the firm could not continue to sell to Germany. How could we maintain our freedom if individual American firms were compelled to discharge employees in order to win trading concessions for Europe?

**THEIR AIM**  
What the Nazis really hope to do is to play one section against the other.

A German foreign office official told me: "Instead of the United States we would like to deal with different areas, treating them as separate countries. We would not do much business with the country of New York, but we would buy cotton from the country of New Orleans and wheat from the country of Kansas. We would buy produce from the country of San Francisco. We would buy automobiles and agricultural products from Chicago."

In this situation to suppose that, after the war, we could get rid of our surplus agricultural commodities to a totalitarian Europe on any advantageous basis.

Any products of which we had a surplus would be put on the price lists they would not buy. For example, in the last few years the Germans put a maximum price of 6 cents a pound on United States cotton while at the same time they were buying cotton of inferior quality from Latin America, Africa, and Asia at 9 and 10 cents. They did this to divert trade from this country.

Not could we expect to obtain from Europe the products we wanted. We might find that all these items were verboten.

### Latin America

In considering the economic pressure which Hitler might apply to the United States through third countries, let us briefly list the trading areas of the world as they would appear after Nazi victory.

In the old world, there would probably remain but two such areas, the Axis, covering Europe, Africa, and part of Asia; and the Japanese empire in East Asia.

Both these economic blocs practice the strictest of centralized control. They would continue to deal with each other on the basis of special bilateral agreements, covering specified exchanges of commodities and services between them. They would undoubtedly attempt to continue this system of trade with the countries of the new world.

**HICK TREATIES**  
Most of the western republics are now tied to the American economic system through Secretary Hull's reciprocal trade agreements.

Our system provides for most-favored-nation treatment—name-

## With The Railroaders

### On National Lines

Mrs. E. Roycroft, wife of Fireman Roycroft, has returned home from the coast where she was convalescing for her health.

Laborer M. J. Jardon is on a week's hunting trip.

Corman O. J. Staind, who has been on sick leave for the past three weeks, has returned to work at Calder.

Car Inspector A. Johnston is on three weeks' sick leave.

General superintendent of motive power and car equipment, J. K. Wimpsey, was a business visitor in the city this week.

Corman's Health R. W. Robertson, of the Calder car shops, is leaving this week-end for Calgary, where he is attending the Trade Congress and C.I.P. convention.

### Gas Control Plan Is Working Well

Cottrell's Sales

TORONTO, Sept. 20.—(CP)—G. R. Cottrell, federal oil controller, said Friday he is "quite ready" to discuss with the oil companies for any one else "any better plan for conserving gasoline and oil than the order cutting dealers' supplies 25 per cent monthly from their July totals."

Mr. Cottrell said inequalities have arisen from the order but the whole plan was working out well.

Some station operators had complained that some stations, catering to summer trade, were approaching their slack seasons and because of this gasoline supplies based on July deliveries would be in excess of their requirements.

### Officer Charges Reservists Are "Dodging Issue"

HAMILTON, Sept. 20.—(CP)—Major E. B. Grass, commanding officer of the 6th Division Ammunition Company, R.C.A.S.C., Friday charged army reservists with "dodging the issue" when he appealed for recruits for his unit.

Reporting that the response of reservists in the reserve army had been disappointing, Major Grass declared that if men in the reserve did not want to enlist for active service when the call came, they should not remain on the strength of the reserve.

"Too many people get the idea that these men are doing their duty by donning a uniform and drilling one or two nights a week, when they ought to be on active service," he said.

The best fighting age for soldiers is from 21 to 25 years.

### Wetaskiwin-Born Worker Meets Death In England

VANCOUVER, Sept. 20.—(CP)—Mr. and Mrs. J. W. Herrie of Vancouver have been advised of the accidental death Sept. 11 in a British aircraft factory of their son, Cernel Herrie, 38, who paid his own way in Britain after being rejected for army service here at the outbreak of war.

No details of his death were given. He was a native of Wetaskiwin, Alta.

The tree kangaroo is a mammal.

## ALBERTA DISTRICT NEWS IN BRIEF

Annual Red Deer Fall Show  
And Livestock Sale Oct. 15

RED DEER.—Central Alberta's third annual fall stock show and sale of cattle, sheep and swine, will be held at the Red Deer Exhibition Grounds on Wednesday, October 15.

The event is under the auspices of the Red Deer Agricultural Society, Blundell Valley Livestock Co-op, Bentley Mountain View Livestock Co-op, Olds Federated Co-op Service, Lacombe, Buffalo Lake Livestock Co-op, Mirror, the Ponoka Livestock Co-op, Ponoka and the Central Alberta Dairy Pool, Red Deer, C. F. Danon and Archie Boyce will do the selling.

Entries for the show and sale should be sent to the secretary, D. W. Robertson, Red Deer, before September 30.

**TEACHERS**  
When the fall school term opens, 26 teachers will start the high school, intermediate school and the three public schools in Red Deer.

The staff in the high school and the subjects, each will teach: Principal B. L. Whitney, mathematics, physics, guidance and boys' physical training; Mrs. M. N. Aylesworth, French and English; Miss G. Colwell, art, Latin and typing; C. D. Donnell, physics and chemistry; H. L. King, social studies; J. Majewski, drama, English and art; C. D. Donnell, physics and chemistry; H. L. King, social studies; J. Majewski, drama, English and art; C. D. Donnell, physics and chemistry; H. L. King, social studies; J. Majewski, drama, English and art.

**Elevators Report**  
Light Deliveries  
BON Accord.—Threshing at Bon Accord is in full swing again, and despite cloudy weather, farmers are working day and night to have their light crop.

Elevator business is "very quiet." This is unusual for the Bon Accord district. The light crop and increase in hogs and live stock is mostly responsible for very light deliveries.

**TEACHERS LISTED**  
For the coming term at Bon Accord school are as follows: Stanley Roberts, principal and teaching high school, grades 11 and 12; Frank Walker, senior room, teaches grades 1, 2, 3, 4, 5, 6, 7, 8 and 9; Miss St. Pierre, junior room, teaches grades 1, 2, 3 and 4.

**Arrangements Are Being Completed For Anniversary**  
CORONATION.—At a special meeting held in the town office this week, further arrangements were made for the 30th anniversary of the Town of Coronation. An address will be given by the mayor, and a free show will be held in the Star Theatre and a dinner in the Elks hall will finish off the big day.

**PUBLIC ADDRESS**  
Major Evelyn, George McNeil, A. C. Thomas, C. F. Reid, addressed a public meeting in Elks hall Friday night. A reconstruction service was held and the local militia attended in a body.

**Red Cross Work**  
LLOYDMINSTER.—The holiday season of July and August did not interfere with the activities of the Lloydminster Red Cross judging by a large list of articles and to headquarters at Regina during two months.

## Side Glances

## By Galbraith

"All right, General Wavell, here's your chance to try out those tactics you've said England should use in case of invasion!"

## At Ferintosh

Mrs. William Shepherd and son, James, left today (September 18), for Dauphin, Manitoba, to join her husband, William Shepherd, who is a member of the anti-Coms force.

**Hanna Notes**  
Mr. and Mrs. Arthur Lally left Monday night for Kansas City, Kansas. Mr. Lally will attend the Convention of Railroad Carpenters as an official delegate from the local branch.

**MOVES TO COAST**  
Mr. Eugene Grover left recently for the coast where he will spend the winter with his husband's parents, Mr. and Mrs. E. Grover, of Vancouver, B.C. Mrs. P. Mark and daughters, have moved into town from Sherwood.

**Musidora Farmer Passes At Home**  
TWO HILLS.—William Elbow, of Musidora, eight miles east of here, died recently at his home. He was 82 years of age and came to Canada from the Ukraine in 1904.

**Dies In Service**  
GADSBY.—Sergeant Gordon B. Jackson, son of G. B. Jackson, Gadsby, was posted as "died on active service" in the latest casualty list issued by Ottawa for the RCAF, Saturday.

**WAINWRIGHT STAR**  
Have you seen your star to gladden the heart of your loved one? If you haven't, stop and listen. You have missed life's finest gem.

**KITCHEN SHOWER**  
Held For Bride  
DAYLAND.—Kitchen shower was held at the home of Miss Marie Josephine, this week, in honor of Miss Nadia Hryciuk, bride-elect.

**Bride-Elect Is Honored Guest**  
KILLAM.—Mrs. K. Smith and Mrs. W. Hall were joint hostesses at the home of Mrs. W. Hall when about 200 friends gathered for a shower for Miss Doris Kinner, the bride.

**Member Of Army Reserve Summoned**  
VANCOUVER, Sept. 20.—(CP)—E. S. Duck, first Vancouver reserve soldier to be summoned under the Militia act for failing to appear for a parade, was summoned when he appeared before Magistrate Mackenzie Macdonald in court Friday and was fined \$25.

**Lumber Workers' Shortage In East**  
VAL D'OR, Que., Sept. 20.—(CP)—P. Cote, superintendent of the Quebec employment bureau here, said Friday there was an acute shortage of lumber-workers in this northwestern Quebec district, with 4,000 needed for fall and winter work.

## Official Visits

LLOYDMINSTER.—Mr. Staines, minister of education for the Province of Saskatchewan, accompanied by the deputy minister, Mr. McKechnie and Mr. Lake, superintendent of the department of education, were visitors in Lloydminster Thursday and made a thorough inspection of the public and high schools.

**Fashion Show Well-Attended**  
WETASKIWIN.—Elks' hall was the setting Wednesday afternoon and evening when Brody's presented their annual fall and winter fashion parade, sponsored by the Peace Hill Chapter of the I.O.D.E. with all proceeds for I.O.D.E. work.

All the latest costumes were shown, with models being the following: Madeline Irvine, Forbes, Palfrey, Brenda, Sutherland, Anderson, and Misses F. Condie, Stanbury, D. Condie, McElhargy, Burroughs, Daulton and Thompson.

Arrangements for the show were under the direction of Miss Lillian Sluker, and the staff of Brody's.

Mrs. Dr. J. C. Shillaber, convener of the show and refreshment end of the show, Walter Hamlin, Limited, of Edmonton, supplied floral settings and corsages, adding to the already lovely decorations.

During the intermission, members of the Girl Guides made an appeal for aluminum pots, pans, etc. Members of the Boy Scouts came forth with their appeal for old tin for tinners' jackets.

While the local Women's Auxiliary asked for pennies for the "Twenty-a-Week" fund, a collection of English was made for a Wetaskiwin high school representative, brought in the sewing stamps and money.

Vote selections were given by Mrs. Dr. J. C. Shillaber in her "Vote" box, addressed made up of Mrs. Thomas Hume, limited, 600 Avenue for the I.O.D.E.

# Looking for Food

It begins to appear that Dean Griffing has come up with quite a ball game down in Regina. That idea of grubbing the Regina diet to get a challenge series with the Conference champion for the week-end title this fall, will hold its first workout at Clarke Stadium at 10:30 a.m. Sunday.

New Griffing comes along with a club of home-brews from Regina and its environs and gives the Grizzlies a thumping at all of them will undoubtedly be glad to forget as quickly as possible.

These surprising Regina Roughriders are players who came up from junior football with the confidence of some of the better players from the U.S. They are proud that, with the proper attention given them, we don't need talent from south of the border to maintain the calibre of play in our Western Conference.

## Esquimos Start Drills Sunday

SUNDAY morning the Eskimos, the senior football club which expects to get a challenge series with the Conference champion for the week-end title this fall, will hold its first workout at Clarke Stadium at 10:30 a.m. Sunday.

This group of Edmontonians, playing purely for the fun of it, have presented a formal challenge for the weekend championship to the Western Rugby Football Union to drive down to them on Sunday for it.

In order, it is difficult to see how the conference winners can avoid the Edmonton challenge.

There are a surprising number of former Conference stars here at present, some excellent juniors for reserves and altogether the Eskimos may turn out to be a much more powerful outfit than you would expect. They will probably get in a couple of games against the Golden Bears for a shakedown before tackling the Western Conference winners.

Equipment of the Junior League will be used and will be available for Sunday's workout. All juniors and others interested in making a place on the Eskos are cordially invited to turn out for this first drill.

## Canadians Off For Rosedale

SUNDAY brings the first chapter of baseball for the 1941 season as far as Edmonton is concerned when the Canadian Athletic Club finishes up its last of three series with the Rosedale Midways for the junior championship of Alberta. Canadians beat the Rosedale boys 12-4 here last Sunday in the second game of the series.

The Canadians will leave this afternoon and spend the night in Drumheller, play out the series Sunday afternoon at Rosedale and return that night. Sunday's first game is scheduled for 1:30 p.m. at Rosedale.

Despite their decisive win in the opener, the Canadians will have to hustle all the way if they are going to come back with the Alberta championship. The Midways gave the impression of being capable of much better ball than they played here.

## Junior Grid Game Tonight

Sixth game of the City Junior Football League schedule is billed for Clarke Stadium at 8:30 p.m. tonight and Edmonton Athletic Club and South Side Spitfires will be putting on the show.

This will be the second meeting between these two clubs, the first clash squall having blanketed the E.A.C. boys 6-0 in the first round after a nip and tuck battle.

What will inject a little extra pep into tonight's game is the fact that second place in the league standing is at stake and the Clubmen chance of a shot at the Grey Cup will be rather slim unless they can throw the South Siders for a loop.

Maple Leafs are sitting out in front with four straight wins, two from each of their opponents, but they have always had some come behind in the last few minutes to do it and no game has been as close as this one.

Spitfires and E.A.C. appear to be very evenly matched, the boys from Green Mountain having an edge in kicking, with Coach Ernest Stevens' squad.

The E.A.C. team has a nifty ball center in Doug Stevenson and Tom McClelland. Steve also been showing his stuff. Then there are Bud Hall, Bill Craig, Don Olive and the Tuckers and several more who would look mighty good in any man's junior line.

Blizzards lead Calgary Juniors

North Hill Blizzards took over leadership in the Calgary Junior Rugby League Friday night when they defeated West End 14-0 in a 4-3 under floodlights before a crowd of more than 2,000 fans.

A touchdown by Bill Parker in the first quarter was converted by Merv Klippert to give Blizzards an early lead. Bill Weaver's nail ended touchdown in the third quarter falling to tie the score when the contest was tied.

Keller Likely Ready For Series

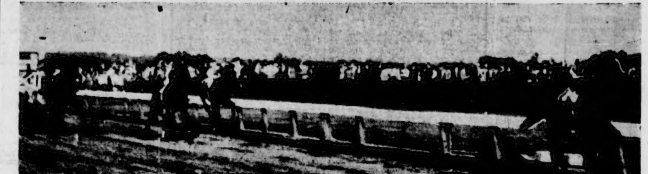

NEW YORK, Sept. 20.—(AP)—Hopes of New York Yankees for having outfielder Charlie Keller available for the world series got a boost Friday.

The home run slugger who suffered a hip fracture of his right thigh five days ago, showed up at Yankee Stadium and walked around the turf.

He said the tendon hurt a bit, but that he was sure he would be ready to play in the series.

# RIDERS NOW LEAD CONFERENCE Regina's Power Too Much BULLETIN

## War Relic Whips The Mighty Whirlaway

Man of War came back to the racing strip when his son and offspring, War Relic, conquered the mighty Whirlaway in hollow fashion by four and a half lengths before a cheering throng of 43,000 customers present to see the running of the \$25,000 Narragansett handicap. War Relic is shown leading. The group of three is, Whirlaway, center; Equinox, outside, and Haltal on the rail.

## Canada's Need Of Men Stressed

# Justice Embury Of Saskatchewan Takes Rigid Stand On Passports

REGINA, Sept. 20.—(CP)—Saskatchewan hockey players liable for military service who have contracts with clubs in the United States will not be granted passports by the Saskatchewan divisional board under the National War Services Act.

Mr. Justice J. P. L. Embury, chairman of the board, in a two-page written ruling today announced the decision to refuse the hockey players' passport rights. Board members unanimously concurred in the ruling.

On behalf of a group of players from this province who had contracts with United States hockey clubs W. G. Currie, Regina, bartender, appeared before the board, seeking a definite ruling from the War Services Board so that the players be represented and others aware of their rights.

Embury allowed Louisville eight hits but kept them strangled. The fourth when the Cubs bunched three blows for the only tally. He issued four passes, but with brilliant fielding was never in danger of losing the lead presented him by his mates.

Louisville 100-100-181  
Cubs 100-100-81  
Says, Scheetz (4), Wood (4) and Glenn (Gordie) and Heath (4) of seven series, Columbus 10-0.

## With The Pin Busters

Jack Reinhard of Bruins moved down 215 in his first game to lead the Montreal League for all time high at Recreation arena on Friday night. Top triple was 364 by the Montreal Canadiens, his Montreal was 176, 180, 215.

Dodgers' aggregate was 236 with Bruce near with 237 and C. N. Express had 233.

Sixteen teams turned out for first game. For Junior Commercial Ladies five and J. Spooner of the C.N.R. Mixed 5-pin. Spitfires and E.A.C. appear to be very evenly matched, the boys from Green Mountain having an edge in kicking, with Coach Ernest Stevens' squad.

The E.A.C. team has a nifty ball center in Doug Stevenson and Tom McClelland. Steve also been showing his stuff. Then there are Bud Hall, Bill Craig, Don Olive and the Tuckers and several more who would look mighty good in any man's junior line.

# For Grizzlies Coast Gridders Get Bad Mauling

REGINA, Sept. 20.—(CP)—Turning loose a gridiron machine loaded with power, Regina Roughriders ripped Vancouver Grizzlies apart for an 18-0 victory Friday night and took over top place in the Western Interprovincial Football Union.

It was Regina's second triumph over Grizzlies in three starts, but the one-sided victory came as a surprise to 3,000 spectators who saw Riders outclass the British Columbia entry and turn in an impressive show in their home debut.

Practically the entire game was played inside the Vancouver 40-yard line. Roughriders lacked scoring punch near the goal line but might have piled up a large score.

Not until midway through the fourth quarter did Grizzlies gain possession in Regina territory and then they lost it forward pass into a Regina defender's hands. Grizzlies hadn't a single scoring opportunity.

Two MAJORS IN SECOND

Roughriders scored the first of two touchdowns in the home quarter as Tom Springfield, quarterback, placed a placement kick that wound up in Jimmy Kilney's hands, a 25-yard forward pass to Charlie Murr.

In the last quarter Riders made a spectacular advance on two long passes, then sent Ken Charlton over from 30 yards.

Later-play play that had gained yards consistently all night. The Roughriders were forward pass, Springfield, and were augmented by long singles as Tom Springfield, quarterback, placed a placement kick that wound up in Jimmy Kilney's hands, a 25-yard forward pass to Charlie Murr.

## Long Holiday Reaches Close For Students

With the din of hundreds of school bells all over the province Monday at 9 a.m., Edmonton's 18,600 school children will put aside for another summer their

Despite a three-week delay in school opening, caused by the epidemics of poliomyelitis and sleeping sickness, separate and public

**TEACHERS PREPARING**  
H. S. Sheppard, superintendent of

During the summer holidays, stated that during the summer holidays, teachers were doing anything but relaxing. He said they have spent the time in organizing their individual courses of study.

It is expected that roughly 14,000 students will be enrolled in public schools this year. Of this number

There will be 3,000 in the elementary grades and 3,000 each in intermediate and high schools. There were about 3,000 enrolled in separate schools last year and officials expect about the same number this year.

**MUST WORK HARD**  
A. A. O'Brien, secretary of the separation from alcohol, urged parents to see to it that children this year buckle down to studying their

"It's going to be necessary students apply themselves right from the start to their daily assignments," he said. Mr. O'Brien did not anti-

expedite any delay in getting classes underway. "There is always some unforeseen problem that delays the start," he said.

# Defenders Of Tobruk Remain Cheerful Through One Of Most Heroic Chapters Of War

British troops crossing a street in Tobruk, where a church still stands amid ruins.

When the history of the Second World War is written, one of the most heroic chapters will be the defence of Tobruk in North Africa by British and Australian troops. Surrounded on land on all sides, but with the port still open to receive supplies, a handful of men have held out against repeated German and Italian attacks through a scorching summer. They have turned back the enemy's dive bombers, tanks, and infantry with heavy losses. Tobruk was first captured last winter by the British in their advance into Libya, and in the spring the Germans and Italians rolled the British back beyond Tobruk, but were unable to take the town or its vital harbor on the Mediterranean Sea. As long as the gallant defenders of Tobruk hold out, the whole Axis position and line of communications in North Africa is vulnerable. Not merely content with holding their own, the hard-fighting Australians of Tobruk have captured important positions outside the town, and thus strengthened their defences. One detachment of infantry, operating within easy range of the enemy's guns, recently captured several Italian artillery pieces, repaired those which needed it, dug in for gun positions, and formed crews made up of cooks, orderlies, and everybody except artillerymen. When the enemy attempted to storm their forward position, these rookies fired 1,100 rounds of ammunition into the opposing lines within two hours, quite an achievement even for artillery experts. Later, when their fire was checked, it was found to be not only rapid but exceedingly accurate. Of such heroic exploits will the epic of Tobruk some day be recorded in full.

This sign shows spirit of gallant defenders.

Australian soldier waters a mule left behind by Italians.

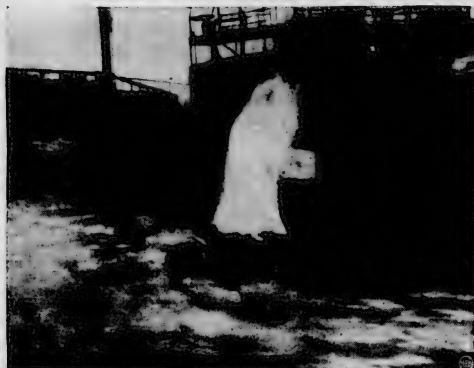

Mail from home is always good news.

Some of Tobruk's defenders live in caves.

## Russians Strike At Germans At Sea

Spectacular photo above, of Russian-fired torpedo hurling plume of water high in the air as it finds its mark amidships on German tanker, tells two stories. First, it pictures Russian communique of July 15 telling of the sinking or firing by Reds of 20 German destroyers, troopships and supply vessels in Baltic Sea. Secondly, it tells why this picture, first to reach America, arrived so long after event: Sea communication is uncertain.

## Wavell's Successor In Africa

Now that Gen. Wavell has been transferred to Syria, the command of the potential "hot spot" in Africa goes to Gen. Sir Claude Auchinleck. It is believed that when winter descends upon the Russian front, Germany will concentrate on an African offensive, and rumblings even at this date, indicate that German preparations are under way. Left to right, Gen. Sir Claude Auchinleck, Maj.-Gen. H. B. W. Hughes and Lt.-Gen. Sir James Marshall-Cornwall witness a troop demonstration in the desert.

## "We Shall Not Fail"

This picture radiated from Moscow shows three bombs dropping from a Soviet plane attacking German military positions. Note shadow of bomber.

## Smiling Volunteers From Canada

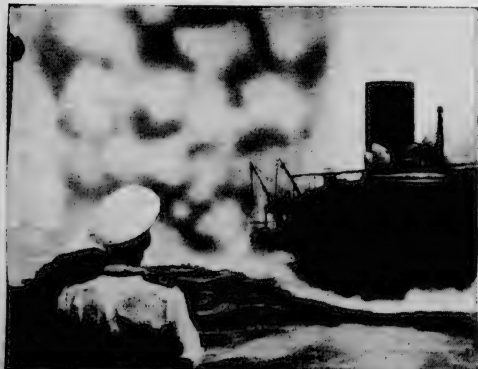

These attractive girls from different parts of the Dominion have arrived in Britain to serve as volunteer workers in the various war services. Some of them paid their own expenses for the voyage and will not only serve without pay but be responsible for their own welfare while contributing to the war effort.

## Fuel For Oil-Short East Goes Up In Smoke

Dense black clouds of smoke pour from a flaming trainload of oil that was bound for the gasoline-shy Eastern U.S. Some 15 of 61 carloads of precious fuel went up in smoke as an eastbound Pennsylvania oil train was derailed just outside Columbus, Ohio. Altogether 27 of the cars were wrecked.

A towering pillar of thick smoke signals the end of this German ship, one of 30 sunk or set afire in the Baltic one day in July by Russian's Baltic fleet. Bombers and coastal batteries working in combination to prevent troops and supplies reaching destination.

# YOURS FOR A WHILE

BY LOUISE HOLMES

The BROOKS family has been broken up when JOHN has been taken to the veterans' hospital, where it is MRS. BROOKS' wish that he should be christened. CHRISTIE, twelve, is the oldest child. She is a tomboy, and works for JACK BARNES, a car mechanic. CHRISTIE is a tomboy, and works for JACK BARNES, a car mechanic. CHRISTIE is a tomboy, and works for JACK BARNES, a car mechanic.

Christie's father had been a soldier in the war, and she had a great admiration for him. She had a great admiration for him. She had a great admiration for him. She had a great admiration for him. She had a great admiration for him.

CHAPTER SEVENTEEN  
CHRISTIE'S voice, usually sweet and laughing, had a resentful note. "No, I'm not going to have a baby."

Gray let her out. It was a relief. "You're sure?" "Yes, I'm sure." She sat up straight, squeezing her eyes shut as if she didn't want to see him.

"Nothing," she answered shortly. "He's down, putting an arm around her. 'Are you sure with your old man?'"

"Everything all right, Christie," she asked in a little voice. "Wonderful," Christie answered without her usual sparkle. "Well," she squinted threateningly.

A LITTLE BOY  
There's always enough money for one little baby. "She turned her head into his shoulder, saying in a muffled tone, 'I love you, just like you, Gray—because I love you.'"

"I'll attend to it. What were you saying to me?" "I'm—shouldn't I be having a baby?"

"Daring—daring!" he had that look again, that look of gazing with terror into the future. Changing the subject, he asked, "Way can you ask, sweetheart? I've never seen you sick before."

"I suppose so," Christie agreed doubtfully. "I added a baby more than anything in the world, but I don't know that." She hesitated, searching for words. "I, Gray, I don't understand him, Mom. He's not like us. Sometimes I think he might have been born on another planet."

Animal Crackers  
"Get a move on, back there!"

Most experienced duplicate players consider the team-of-four contest the most interesting form of tournament bridge. The only difficulty lies in getting four players who want to play together on a team. Every bridge player has three persons who he thinks of himself, who others think of him and who will actually do him. Finding four people who agree their play is of about the same calibre is what holds up the popularity of team-of-four bridge. Interest in these con-
